Zip Files using Zip Repair

is a utility that will repair corrupt Zip files. Usually a corrupt file gives the error message:

"Can't open file: It does not appear to be a valid archive"

Zip Repair creates an error free backup of your original file for instant recovery. You can extract files directly from a corrupt ZIP file to your hard drive. No special skills required. A simple user interface with full install support.

Zip Repair will fix CRC errors in zip files so that data can still be uncompresssed
